

ONE Pure Coffee

Simplified Elegance

The EGRO ONE Pure Coffee combines style with high quality functionality. The floating design of the strong front panel highlights the brilliant touchscreen interface and provides an ergonomic design element.

1 USB & Touch Screen

Upload images, videos, icons and customized drink recipes via an on-board easy to access USB port. The exclusive Load & Show technology automatically starts up when the USB is inserted, making uploading or downloading quick and easy.

The 5.7" touchscreen features eight customizable pages which enable you to program up to 48 drink selections.

2 iSteam™

The completely automatic patented iSteam™ wand froths milk to the perfect texture and temperature. The comprehensive software offers a full range of frothing levels ensuring that your unique taste profile is achieved.

Three product delivery

The ONE uses advanced technology to manage the boiler system enabling you to make an espresso, steam milk and pour hot water at the same time without ever losing boiler pressure.

Dura-Brew

The ONE's brew unit features a patented Dura-Brew sealing technology which extends the life of the brew unit, reducing the number of PM visits needed and lowering the cost of ownership. In most applications only one PM per year is needed.
